

Sanjeev Singh Haire for Events Officer!

Who Am I?

Hi, I'm Sanj, a second-year engineer and I would like to be your next Sikh Society events officer

Why Vote For Me?

- I'm good at working in a team and being a leader, which will help me work with the other members of the committee and wider society to coordinate events.
- I have run Sikh Soc. basketball over the last year and would like to continue organising more events, whether these be casual social/sports events or larger religious events and discussions.
- I've really enjoyed my time in the society and would like to continue the values which have impressed me in my time here while also improving any areas that may need work or be underdeveloped.

Aims:

- To organise a varied range of events or activities which appeal to all the different needs of the society's members.
- To provide more casual events, both religious and welfare related to encourage participation and make everyone feel welcome.
- To simultaneously host more large-scale events to get as many people involved in the soc. as possible.
- To maintain the welcoming and friendly atmosphere of the society for both current members and any future members.
