

Religion & Interfaith Officer Cambridge University Sikh Society

Arunpreet Singh (ass52@cam.ac.uk)

About me

After completing my MPhil here at Cambridge, I am now undertaking a PhD in Engineering (Manufacturing & Management). I hope to help provide a safe, accessible and non-judgmental atmosphere where both myself and all interested can continue to learn more about Sikhi and its accurate representation in society.

Aims

Having been part of the CU Sikh Society for the past two years, I aim to further build upon previous efforts to encourage a balance of social and Sikhi/educational events and initiatives (both intra & inter soc) such as:

- Weekly Nitnem and regular Vichaar (open discussions) encouraging shared learning from everyone, regardless of views, backgrounds etc.
- Gurmukhi, Panjabi speaking and (Raag) Kirtan classes/workshops/events.
- Using personal and society connections with external organisations to host a range of religious/well-being activities & visits/events.
- Maintaining and further developing collaborations with the Cambridge Gurdwara & liaising with other religious societies (e.g. within and separate from CU).

I feel that the CU Sikh Society should serve to enhance the worldly and spiritual journey of all while also helping to inspire and represent Sikhs in Cambridge for years to come.
